

## NOT ALL FOGGERS ARE CREATED EQUAL

The heavy duty, electric *E-II* cold aerosol fogger is a well-balanced, light-weight unit designed for efficiency and easy handling. The *E-II* produces optimum size droplets (one to thirty microns) to allow a uniform coverage of insecticide over target areas.

**IDEAL FOR INITIAL SERVICE/CLEAN OUTS.  
USE WITH PREFILLED CHEMICAL CARTRIDGES.**

The **E-II** dispenses chemical from a 34 oz. pre-filled chemical cartridge or 16 oz. refillable cartridge. The **E-II's** fixed flow rate provides the professional operator with an accurate chemical application of 1 ounce per minute. Because this chemical is dispensed at the optimum droplet size, the possibility of oil slicks or wetting is virtually eliminated, when applied according to label directions.

## Recommended Uses

Aircraft  
 Restaurants  
 Breakrooms  
 Hotels  
 Office Buildings  
 Small Warehouses  
 Residences  
 Lunchrooms  
 Schools

## Specifications

Length	10 5/8"	26.3 cm
Width	8"	20 cm
Height	14"	35 cm
Weight	13 lbs.	6.1 kg
Droplet Size	85% 1-20 Micron/MMD	
Power Cord	8' - 16 Gauge Supplied	Over 25' - 14 Gauge
FlowRate	1 oz/min	30 ml/min

## Options

60/400 Hz. Motor (For Aircraft)  
 220 VAC, 50/60 Hz. Motor  
 Manual Timers: 30 Minute  
 (Factory Installed)
